About This Guide

This guide provides a brief introduction to Deco Whole Home Mesh Wi-Fi 6 System and the Deco app, as well as regulatory information.

Features available in Deco may vary by model and software version. Deco availability may also vary by region or ISP. All images, steps, and descriptions in this guide are only examples and may not reflect your actual Deco experience.

Conventions

In this guide, the following conventions are used:

Convention	Description
Deco	Stands for Deco Whole Home Mesh Wi-Fi System/Unit.
<u>Underline</u>	Hyperlinks are in teal and underlined. You can click to redirect to a website or a specific section.
Teal	Key information appears in teal, including management page text such as menus, items, buttons and so on.
Note:	Ignoring this type of note might result in a malfunction or damage to the device.
Tips:	Indicates important information that helps you make better use of your device.

More Info

- Specific product information can be found on the product page at <https://www.tp-link.com>.
- A Technical Community is provided for you to discuss our products at <https://community.tp-link.com>.
- Our Technical Support contact information can be found at the [Help center](#) of the Deco app and the [Contact Technical Support](#) page at <https://www.tp-link.com/support>.
- Videos about how to configure the Deco can be found on the [Setup Videos](#) page at <https://www.tp-link.com/support/setup-video/#deco>

Speed/Coverage/Device Quantity Disclaimer

Maximum wireless signal rates are the physical rates derived from IEEE Standard 802.11 specifications. Actual wireless data throughput and wireless coverage, and quantity of connected devices are not guaranteed and will vary as a result of network conditions, client limitations, and environmental factors, including building materials, obstacles, volume and density of traffic, and client location.

MU-MIMO Disclaimer

Use of MU-MIMO requires clients to also support MU-MIMO.

IoT Compatibility Disclaimer

IoT compatibility refers only to smart devices that can be controlled via the Deco app. Other wireless devices can still connect to Deco for normal Wi-Fi use.

Seamless Roaming Disclaimer

Clients need to support 802.11k/v/r and may require additional set up. Performance may vary depending on the client device.

HomeShield Disclaimer

HomeShield includes the Free Basic Plan. Fees apply for the Pro Plan. Visit [tp-link.com/homeshield](https://www.tp-link.com/homeshield) for more information.

Appearance

Each Deco has an LED that changes color according to its status, two RJ-45 Ethernet ports, a power slot, and a Reset button.

See the explanation below:

Tip: The product label can be found at the bottom of the product.

- Yellow pulse:**
Deco is resetting.
- Yellow solid:**
Deco is starting up.
- Blue pulse:**
Deco is ready for setup or WPS in progress.
- Blue solid:**
Deco is setting up.
- Green pulse:**
Deco is upgrading firmware.
- Green solid:**
Deco is registered and all is well.
- Red pulse:**
Deco is disconnected from main Deco.
- Red solid:**
Deco has an issue.

Gigabit Ethernet ports :
For connecting Deco to your modem, the Ethernet outlet or other internet devices.

Power Slot:
For connecting Deco to the power socket via the provided power adapter.

Reset Button:
Press for 1 second and release to reset Deco to factory default settings. The light changing from pulsing yellow to solid yellow indicates a successful reset.

Set Up Your Deco

The intuitive Deco app guides you through an easy setup process that gets each unit up and running and all your devices connected and online. Follow the steps below to set up your Deco Whole Home Mesh Wi-Fi 6 System.

1. Download and install the Deco app

Scan the QR code below or go to Google Play or the Apple App Store to download the Deco app. Install the app on your Android or iOS smartphone or tablet.

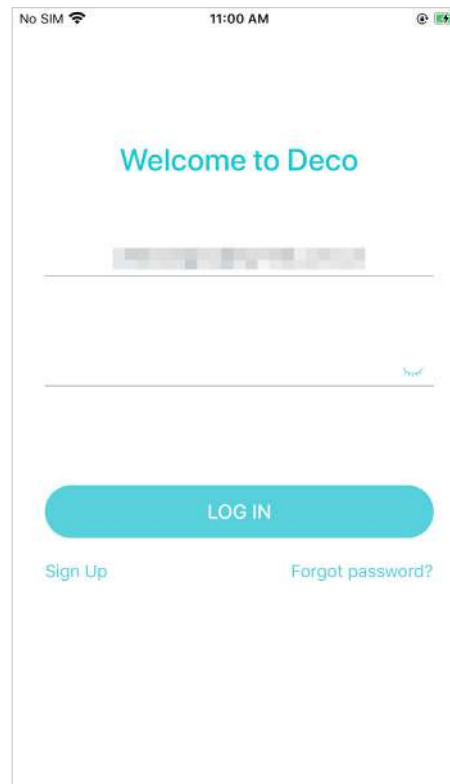

or

2. Log in or sign up with TP-Link ID

Open the app. Use your TP-Link ID to log in. If you don't have a TP-Link ID, sign up first.

Note: If you forgot your login password, tap [Forgot password?](#). The Deco app will guide you through the rest.

3. Identify Your Deco

Choose your Deco model.

4. Connect Deco to your modem

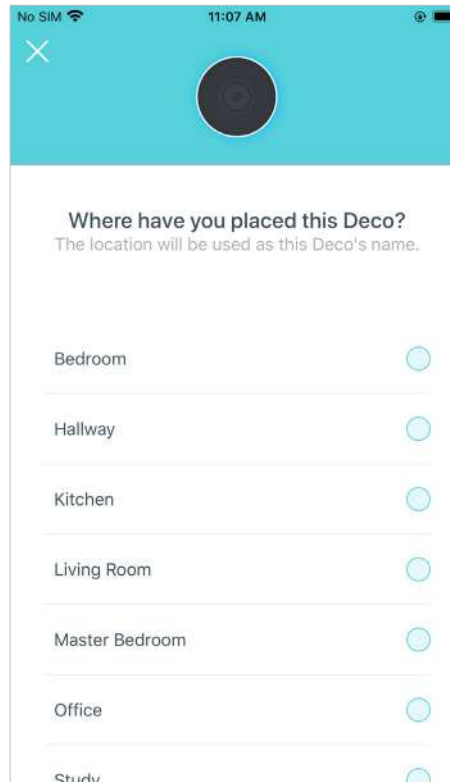

Power off your modem. Connect your Deco to the modem and power them both on.

If you don't have a modem, connect the Ethernet outlet directly to your Deco.

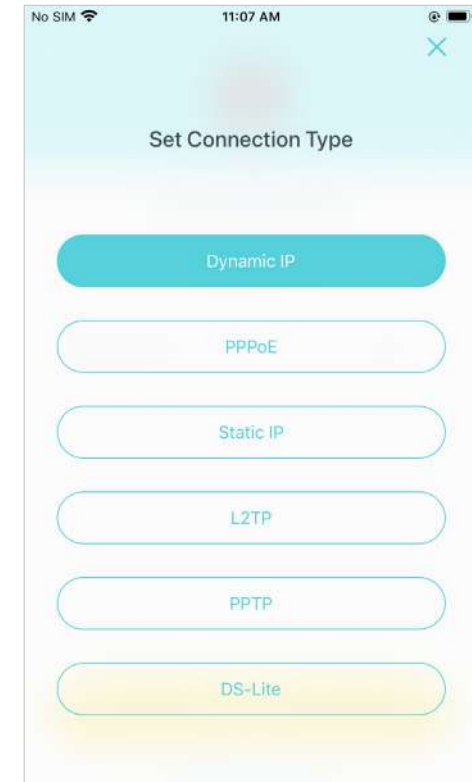

5. Select a location

Select a location for this Deco. If its location is not listed, you can create a new one by choosing [Custom](#).

6. Set up internet connection

Select the internet connection type and enter the information. If you are not sure, contact your internet service provider.

7. Create your Wi-Fi network

Set a network name and a password. These will be the name and password you use to connect your devices to Wi-Fi.

The screenshot shows a mobile app interface for creating a Wi-Fi network. At the top, it says "No SIM" and "11:08 AM". Below a close button (X), the title is "Create your Wi-Fi Network". A subtitle reads: "This will be the name and password you'll use to access your network. Your password must be at least 8 characters." There are two input fields: "Network Name" and "Password". Below the fields, a note states: "It is recommended to set a password using a combination of letters, numbers and symbols." At the bottom, there is a grey "NEXT" button.

8. Connect to your Wi-Fi network

Connect your devices to the Deco's Wi-Fi to continue the setup.

The screenshot shows the next step in the setup process. At the top, it says "No SIM" and "11:08 AM". Below a close button (X), there is a circular icon representing a Deco device. The title is "Connect to your Wi-Fi network". A subtitle reads: "Connect your phone/tablet to the Deco's Wi-Fi to continue the setup." Below this, there is a summary box showing "Network Name: Deco X68" and "Password" (masked). At the bottom, there is a yellow "CONNECT" button.

9. Setup complete

Your Deco network is now up. Add more Decos or complete the setup and connect all devices to the Deco network.

The screenshot shows the final setup screen. At the top, it says "No SIM" and "11:09 AM". Below a close button (X), the title is "Your Deco network is now up". A subtitle reads: "Your Deco is ready to use. Please connect all devices to the Deco network for better connections." Below the text is an illustration of a Deco device with a smartphone and a laptop connected to its Wi-Fi signal. At the bottom, there are two yellow buttons: "ADD ANOTHER DECO" and "DONE".

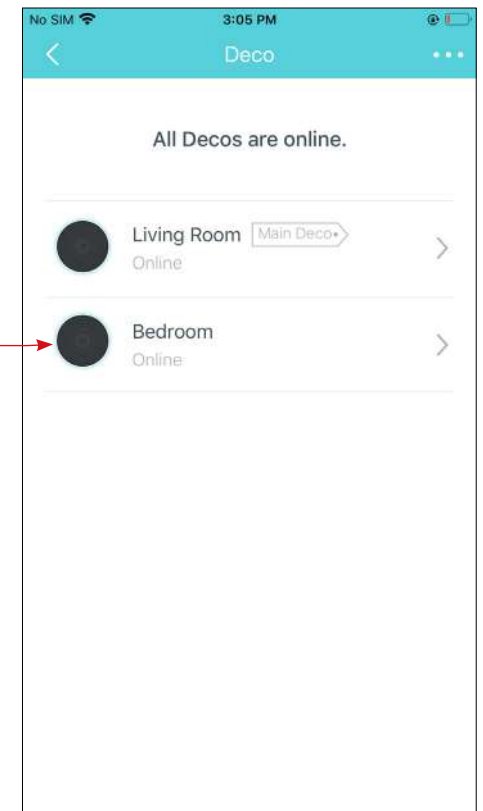

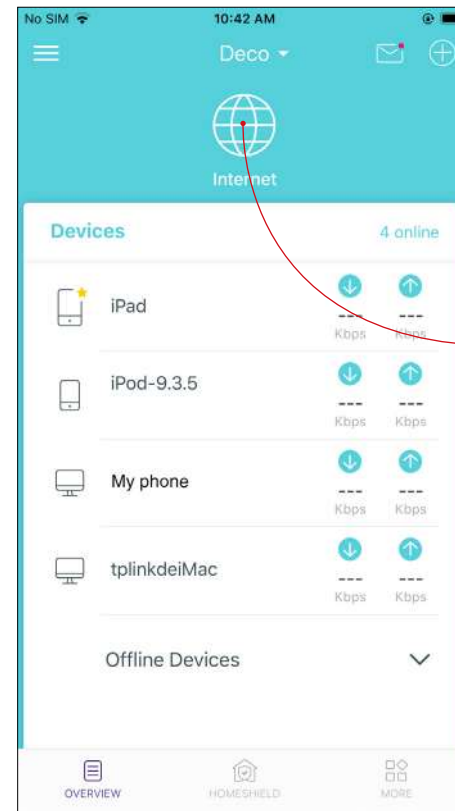

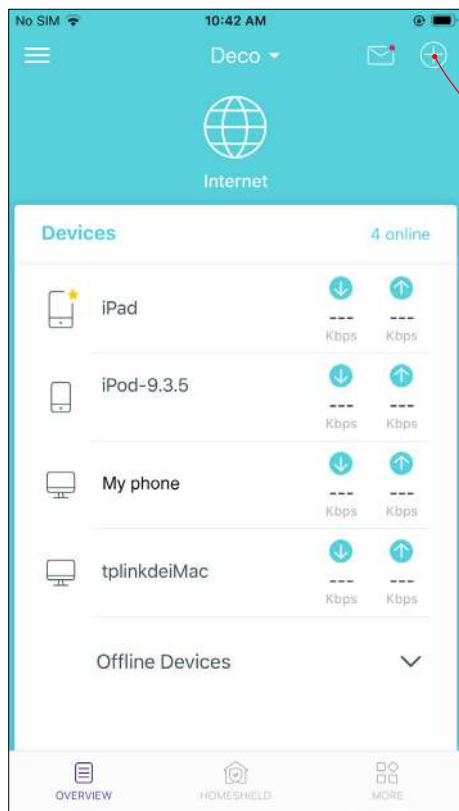

Add More Decos

After created a Deco network, you can add more Deco units into the network to expand the Wi-Fi coverage, and manage them conveniently on your Deco app.

On the Overview page, Tap 

Select the Deco model you want to add, and follow app instructions to complete the setup

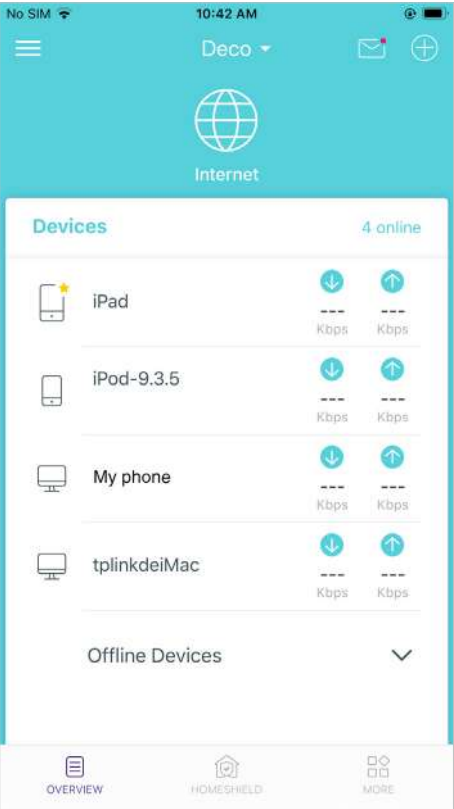

After the setup, you can find the added Decos by tapping 

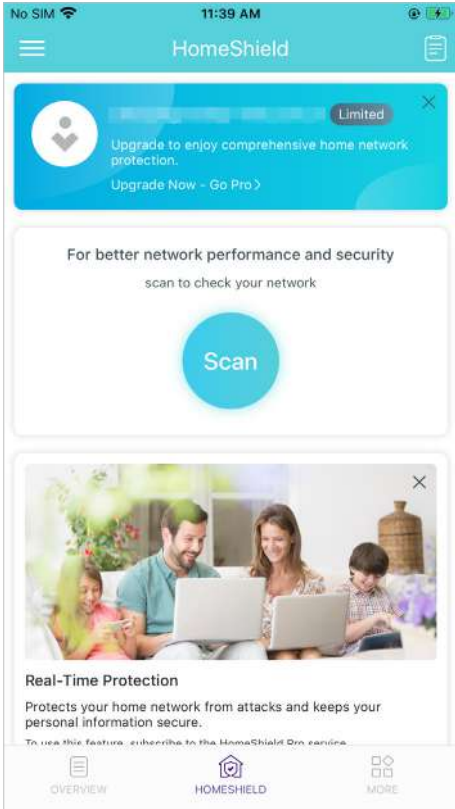

Dashboard

After you successfully set up your Deco network, you will see the dashboard of the Deco app. Here you can get an overview of the network status, customize your home network with enhanced security using a kit of features built to TP-Link HomeShield and set up various advanced features.

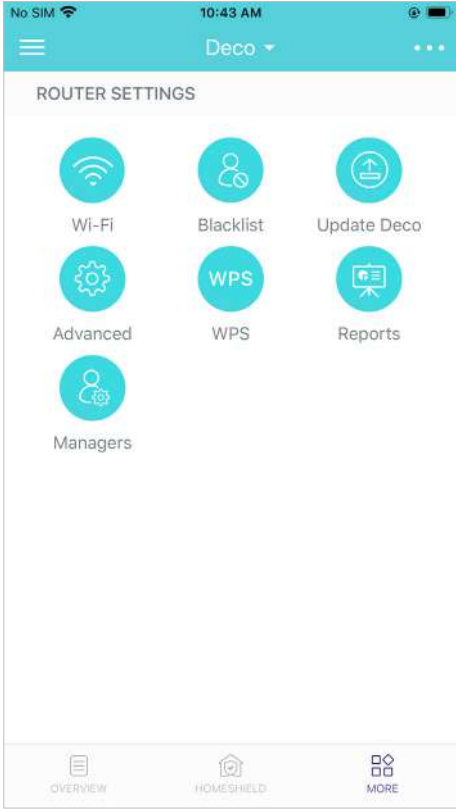

Tap  to get an overview of the network status

Tap  to enter the [HomeShield](#) page for enhanced security

Tap  for more features

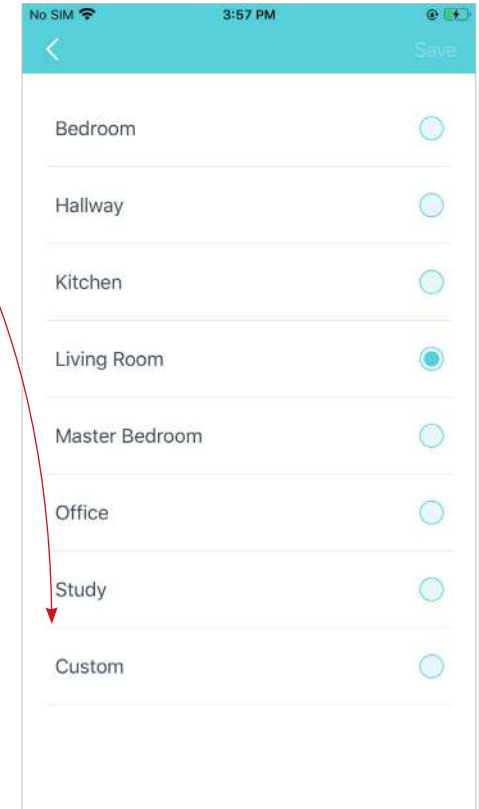

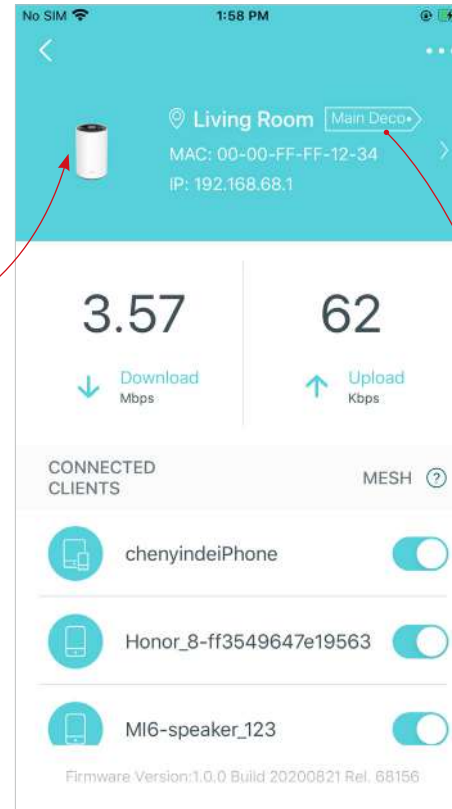

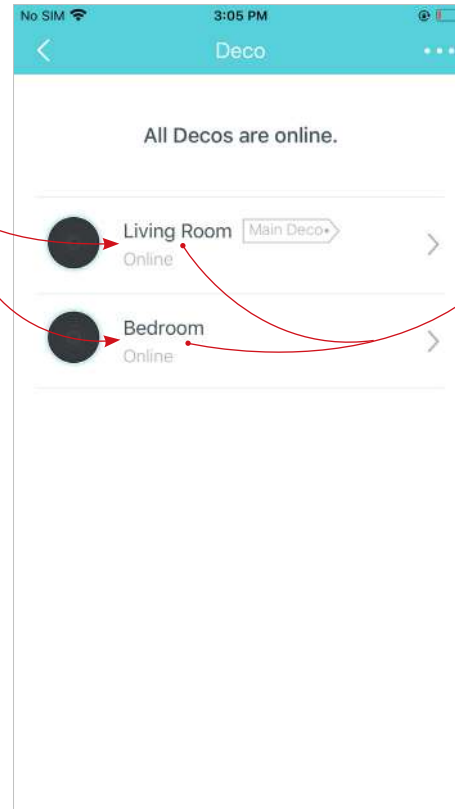

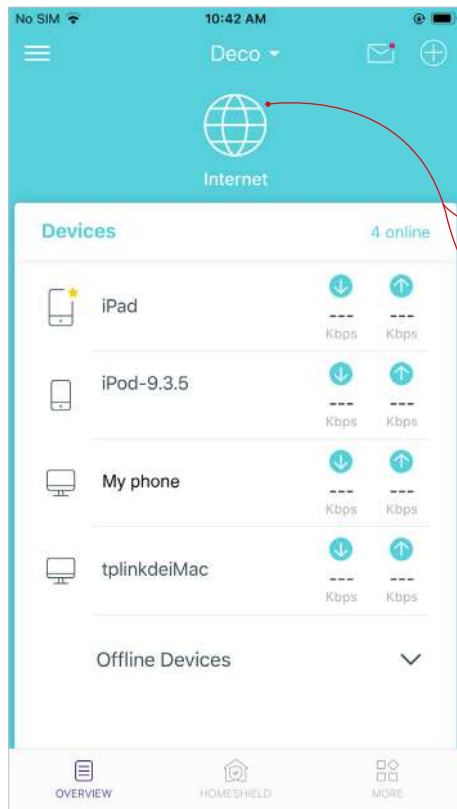

Check Deco Status

In the Overview page, you can check the working status of all the Decos, check the Deco details, change or customize the location, and more.

Tap  to check all Deco's status

Tap a Deco unit to check the details

Tap the Deco unit to change or customize the location

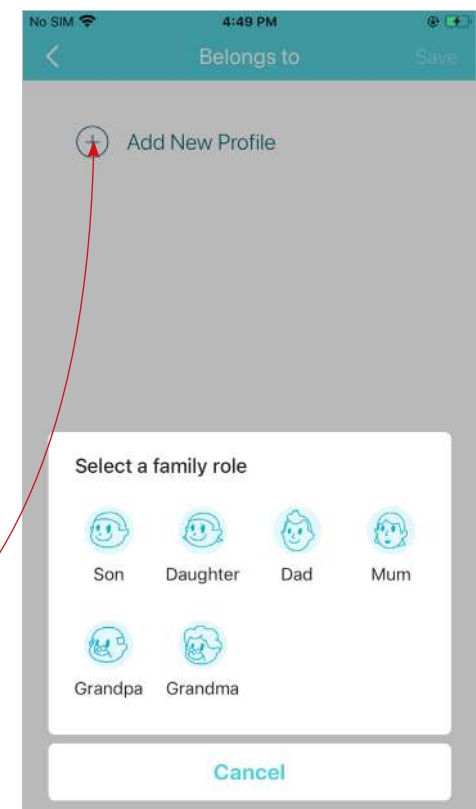

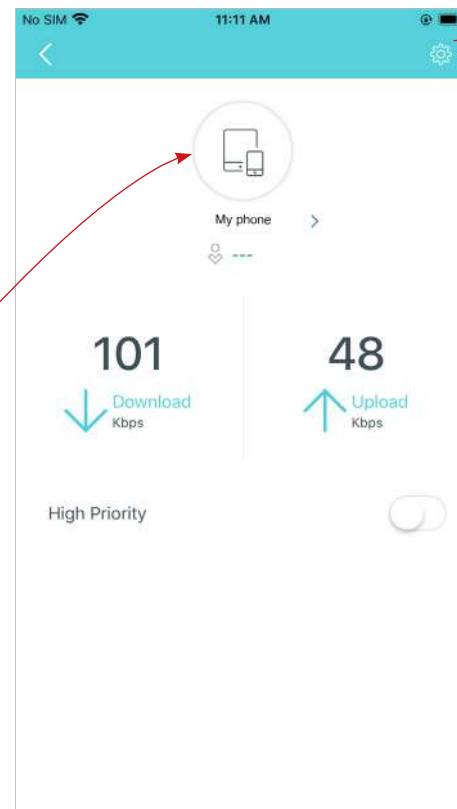

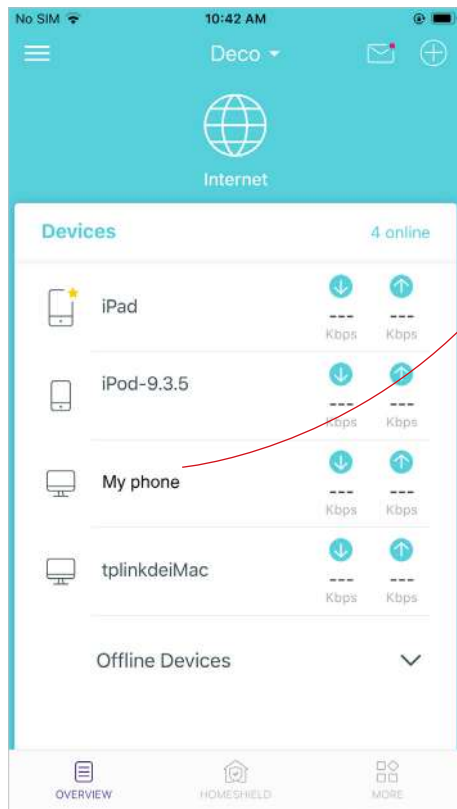

Manage Connected Devices

In the Overview page, you can check the working status of all the connected devices, view the device details, or change the device settings.

Tap a client on the **Devices** list to check the details

Tap  to manage the device settings

Tap **Belongs to** to add a unique profile for the device and manage its online activities

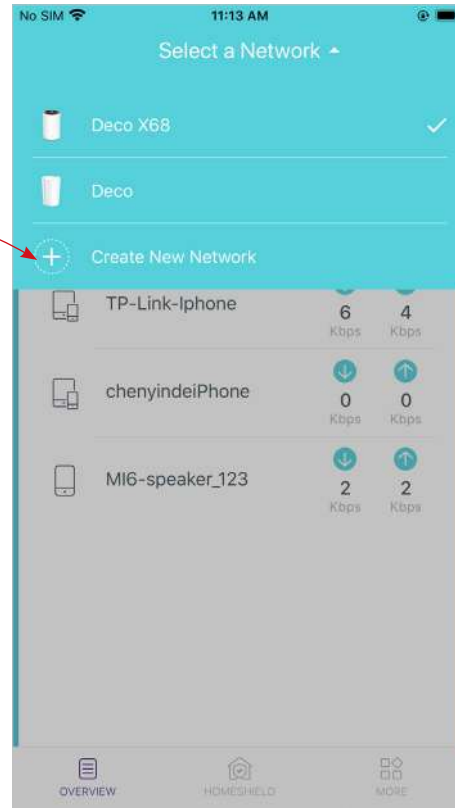

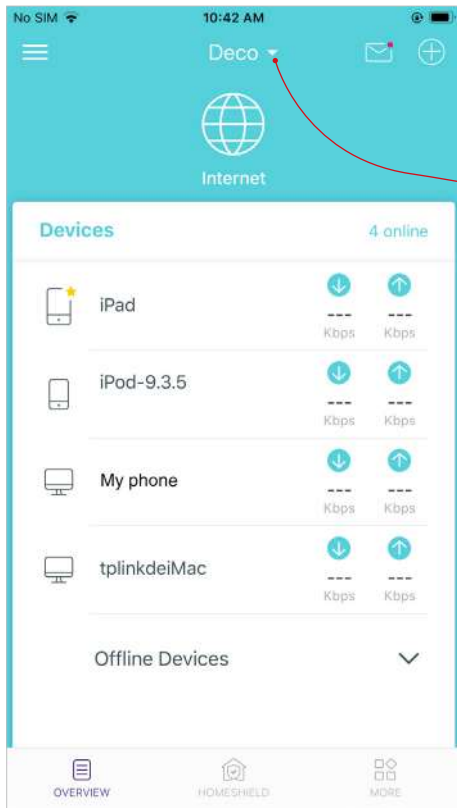

Create New Networks

On the Deco app, you can create different Deco networks bound to your TP-Link ID, and manage them conveniently from the Deco app with one account. You can also help family or friends by managing their network on your Deco app. Two methods are provided as below to create a new network: from the Overview page or the Menu page.

Method 1. Create a new network from the Overview page

Tap  > [Create New Network](#)

Then follow the app instructions to complete the setup

Create New Networks

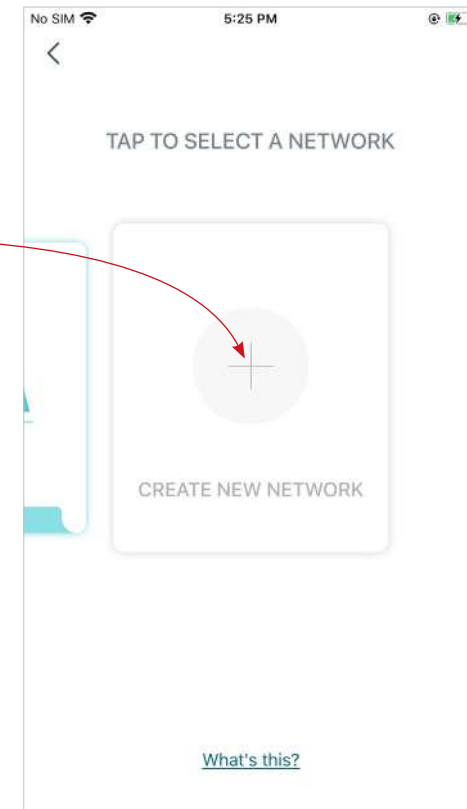

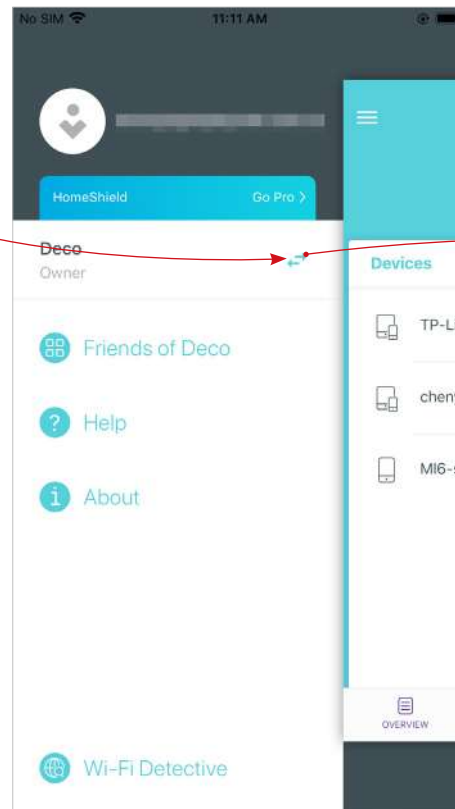

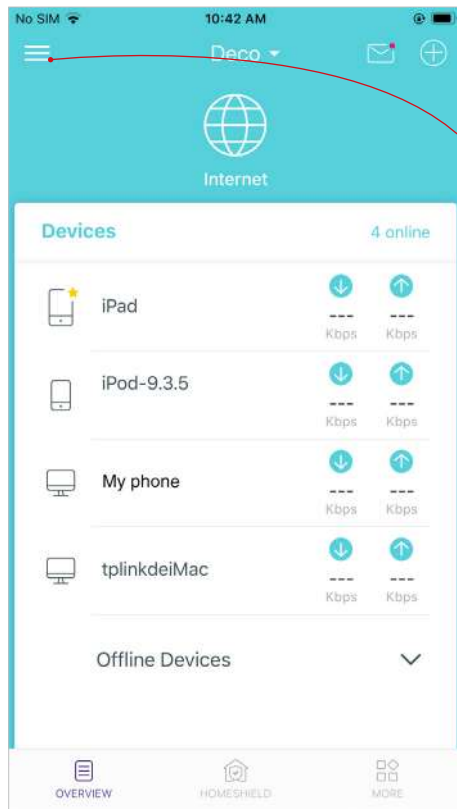

On the Deco app, you can create different Deco networks bound to your TP-Link ID, and manage them conveniently from the Deco app with one account. You can also help family or friends by managing their network on your Deco app. Two methods are provided as below to create a new network: from the Overview page or the Menu page.

Method 2. Create a new network from the Menu page

Tap  to open the [Menu](#)

Tap  > [CREATE NEW NETWORK](#)

Follow app instructions to complete the setup

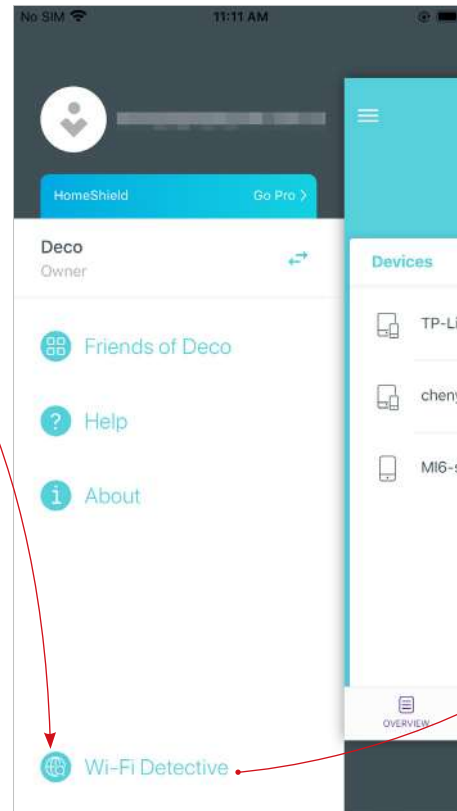

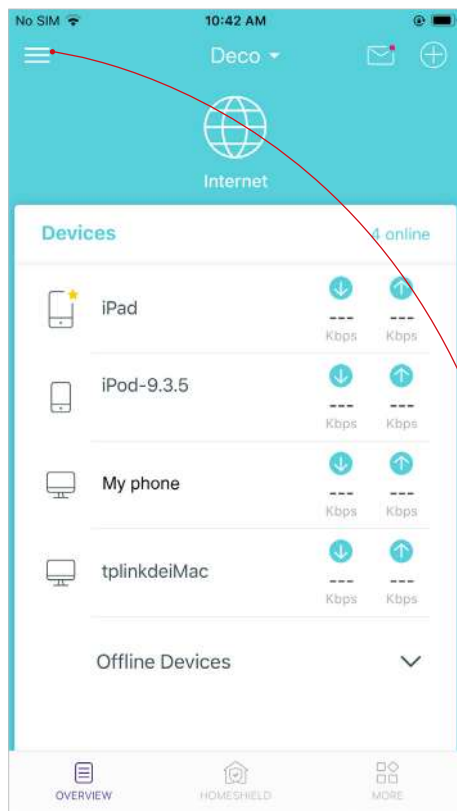

Wi-Fi Detective

Wi-Fi Detective helps you discover all devices connected to the current Deco Wi-Fi network and identify potential risks.

In the OverView page, tap  to open the [Menu](#)

Tap [Wi-Fi Detective](#)

Tap  to find all devices connected to the current Wi-Fi network

Remove/Reboot Deco

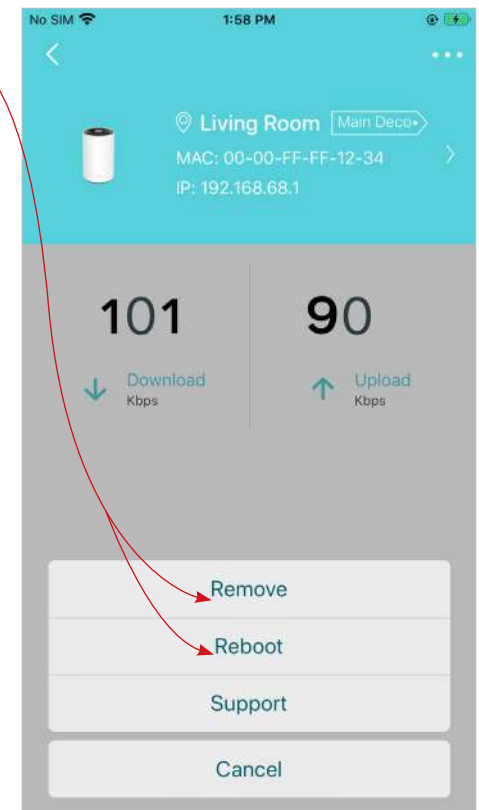

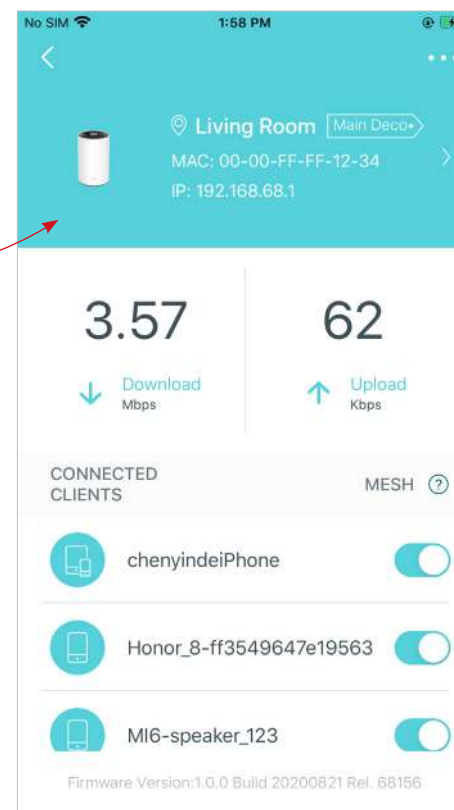

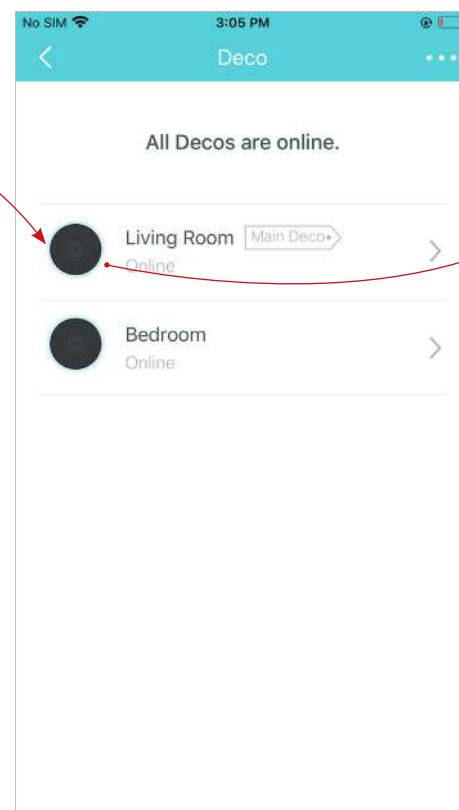

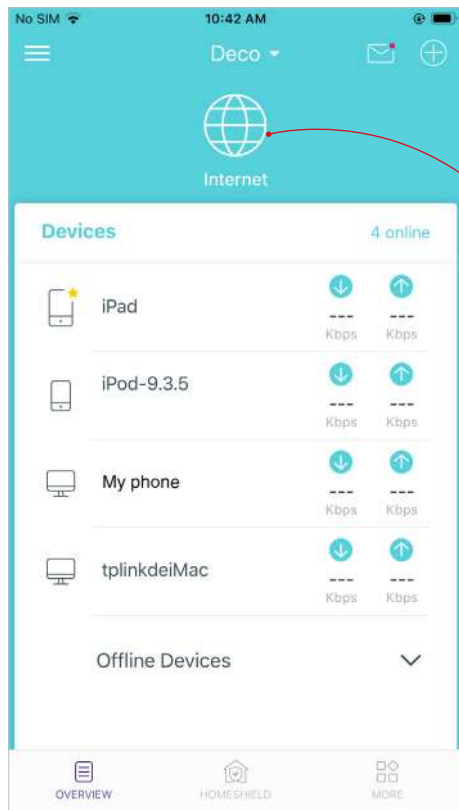

You can remove or reboot your Deco easily on the Deco app. Follow the steps below.

Tap  to check all Deco's status

Tap a Deco unit to enter the details

Tap  to remove or reboot the Deco

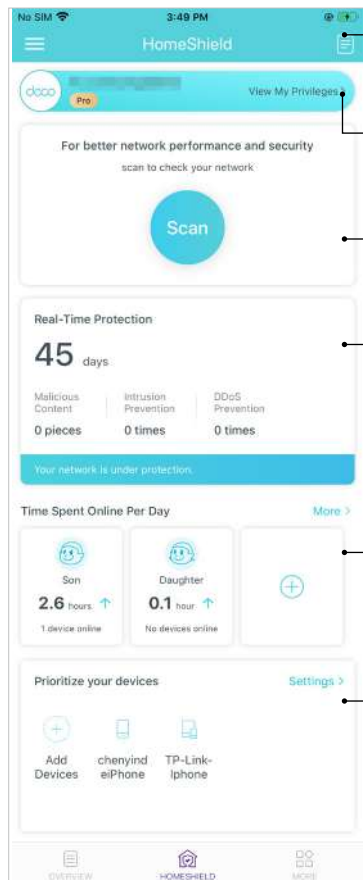

Note: If the LED light of Deco does not turn pulsing blue after tapping Remove, refer to [Appearance](#) to use the reset button to reset it.

HomeShield

Whether protecting your network from malicious attacks, managing your family's online activities, or prioritizing devices to get better performance, TP-Link HomeShield provides you a kit of basic (free) and Pro (charged) features to enhance your whole home network with enhanced security. An overview of HomeShield features are shown below.

- **What is HomeShield:** tp-link.com/homeshield
- **How to use HomeShield features and upgrade to HomeShield Pro:** go to the product support page at <https://www.tp-link.com> and refer to [TP-Link HomeShield User Guide](#).

— **Weekly/Monthly Reports:** Review a weekly or a monthly list of usage, such as security threats, top visited contents, and more, to better manage your family's online activities.

— **HomeShield Pro subscription:** To enjoy more features, you can upgrade to HomeShield Pro.

— **Scan:** Examine your network regularly to identify the potential risks, thus improving your network performance and security.

— **Real-Time Protection:** Real-Time Protection is for Pro users only. There are three ways to ensure your home network and your IoT devices remain safe: (1) block malicious websites, protect your home network and applications against external attacks and eliminate vulnerabilities; (2) prevent infected devices from sending sensitive information or security threats to clients outside your network; (3) identify IoT devices and immediately monitor their security performance once they join the network.

— **Parental Controls:** Create profiles for family members and specify the devices that belong to each. Set individualized parental controls including when and for how long each person can access the internet. Block inappropriate content and pause the internet if necessary.

— **QoS:** Prioritize the connection of a particular device for a set duration, such as a family member's laptop for one hour during a video call.

Wi-Fi Settings

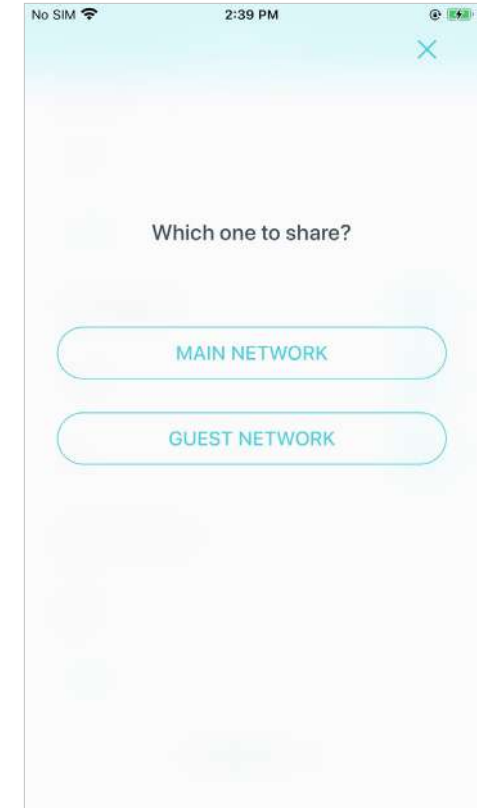

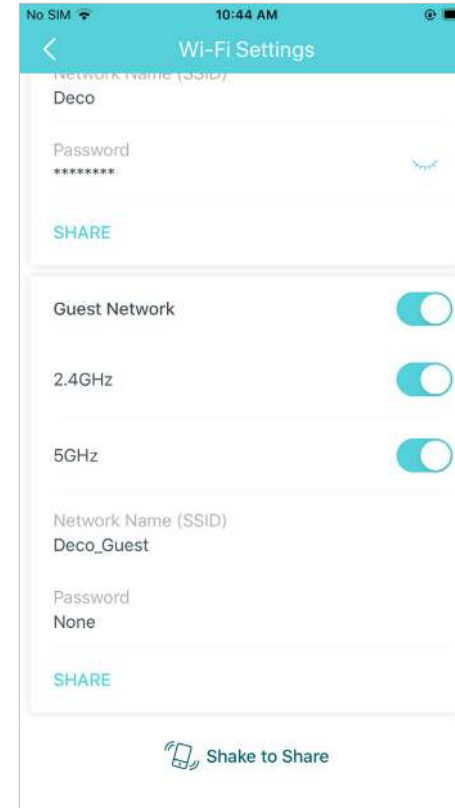

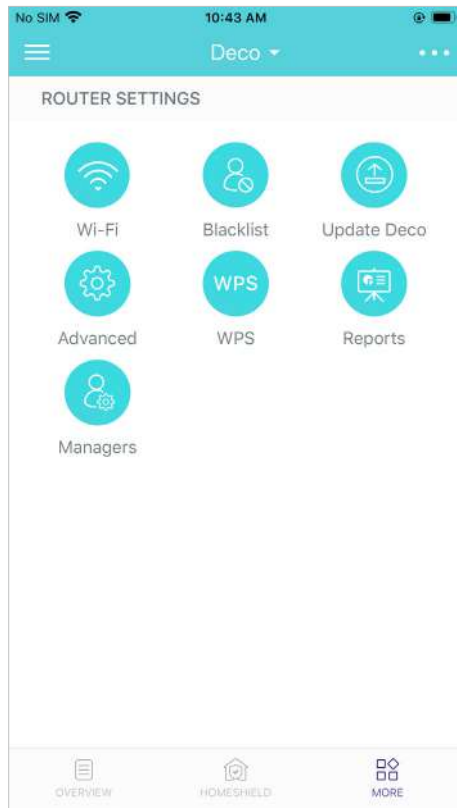

You can change the network name and password of your main network, create a separate network for guests to guarantee the security and privacy of your main network, and shake your device to share the network details easily with family and friends.

Tap  > Wi-Fi

Manage your main network
(eg. change your Wi-Fi network
name and password)

Enable guest network

Shake to share your network

Blacklist

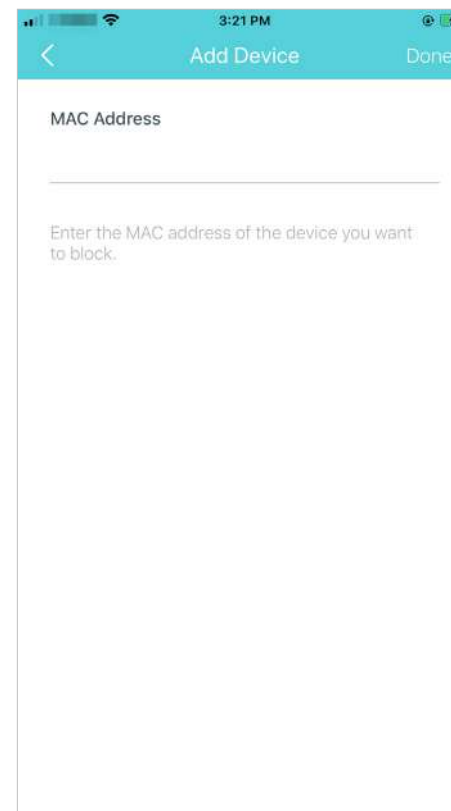

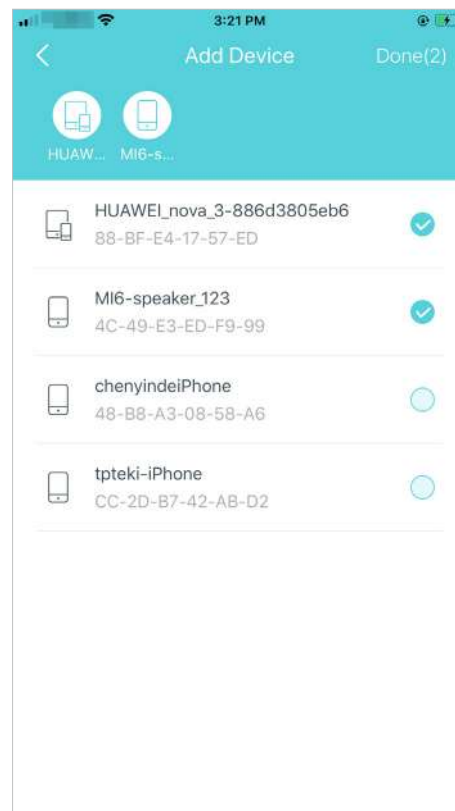

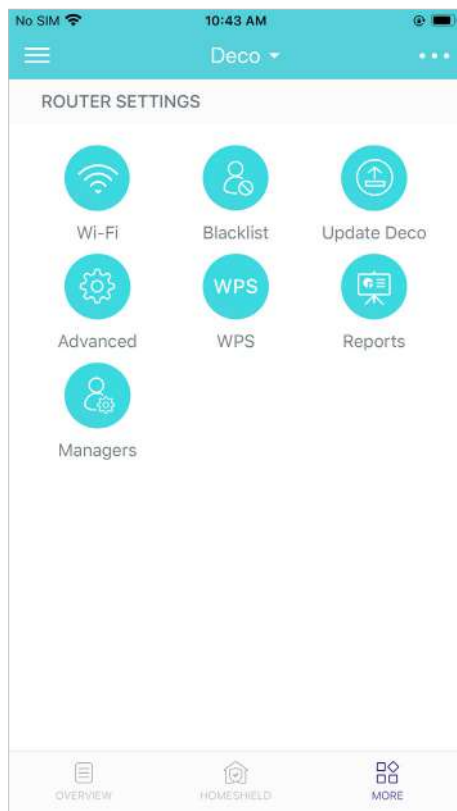

Compile a blacklist to avoid devices added on the blacklist to access to your network, ensuring the safety of your personal information shared in the network.

Tap  > [Blacklist](#)

Add clients to blacklist

Add other devices to blacklist

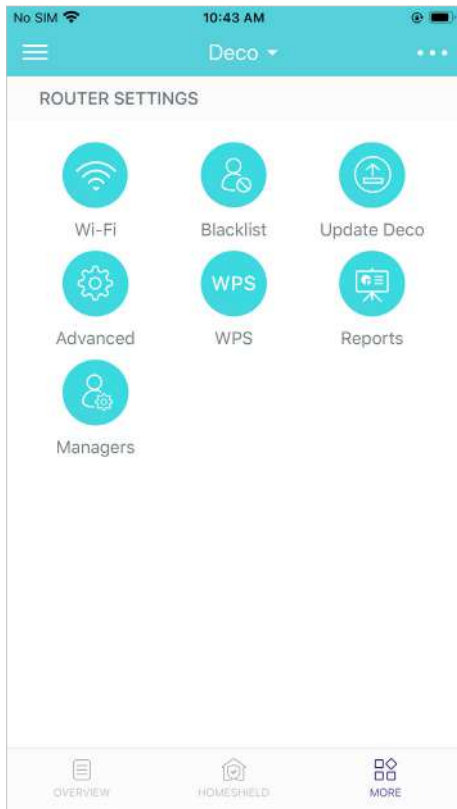

Manage blacklist

Online Update

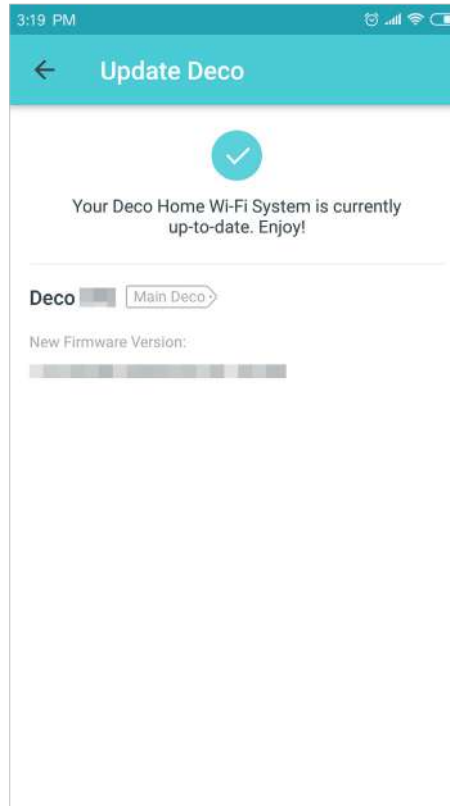

TP-Link is dedicated to improving product features and providing a better customer experience. An up-to-date firmware provides better and more stable network performance. Always update your Deco to the latest firmware version when prompted in the Deco app.

Tap  > [Update Deco](#)

Follow app instructions to update your Deco to the latest version

 Tip: If the firmware update fails, please reboot the main Deco, move the Satellite Deco closer to the main Deco, then try to update again.

Advanced Features

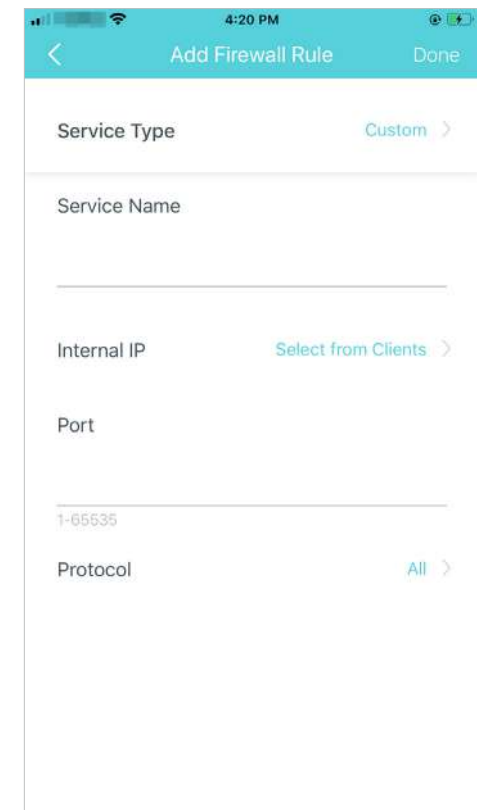

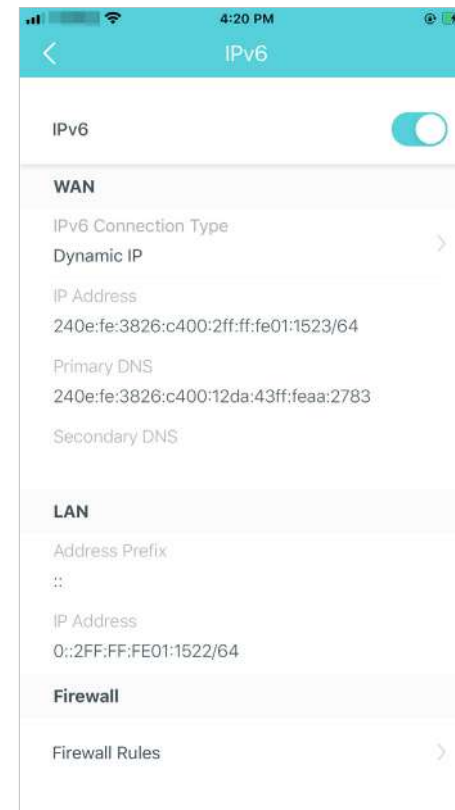

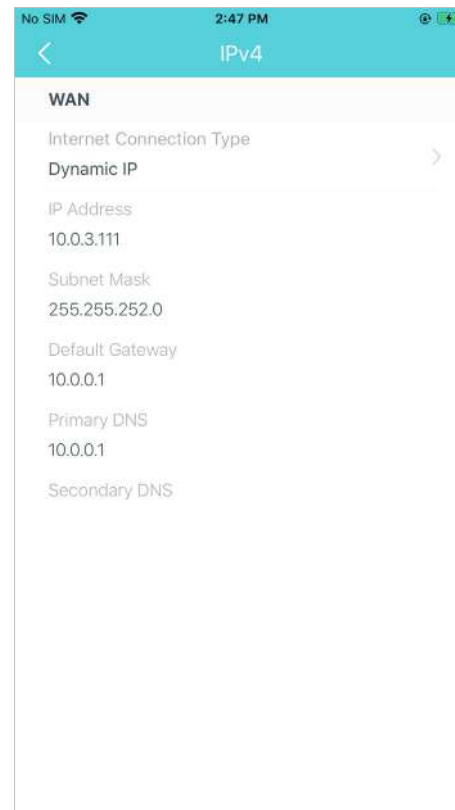

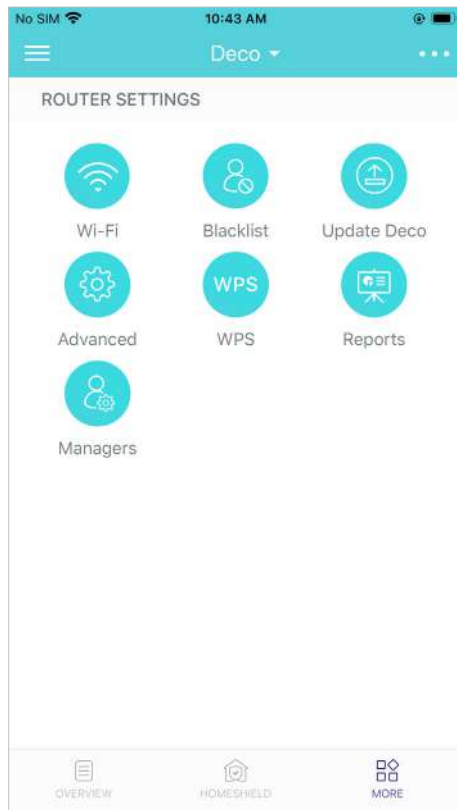

Additional features are available under the Advanced menu. You can modify WAN settings (IPv4 & IPv6), add IPv6 firewall rules, modify LAN IP, set up DHCP server, enable VLAN/IPTV/MAC Clone mode, reserve the same IP address for a specific device, set up port forwarding rules to make your local computers accessible to other devices over the internet, enable TP-Link DDNS, SIP ALG, fast roaming and beamforming, control Deco's LED, change the working mode, and configure the notification settings.

Tap  > [Advanced](#)

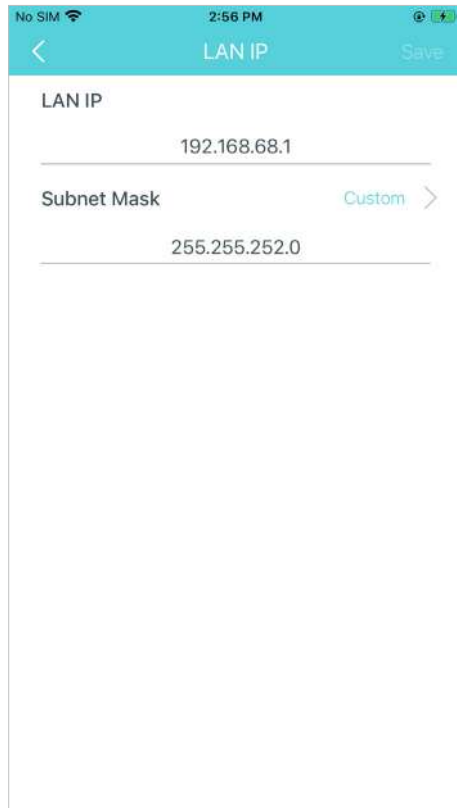

View IPv4 details or change the internet connection type

Enable IPv6 to set up an IPv6 internet connection

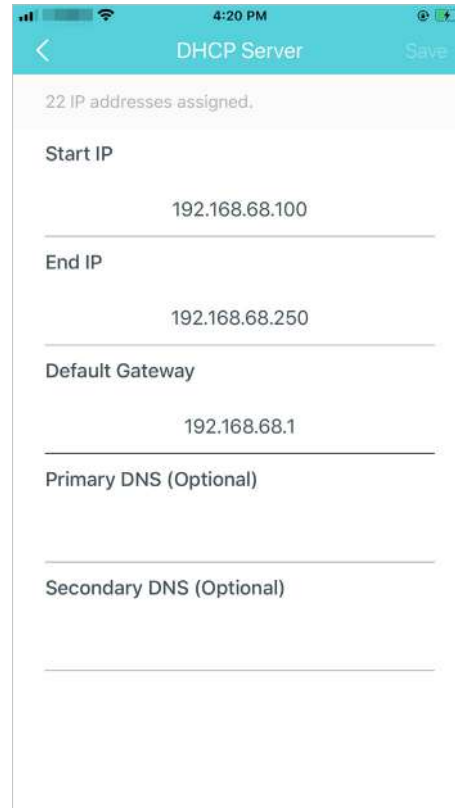

Add IPv6 firewall rules to allow specific devices to access the specified services

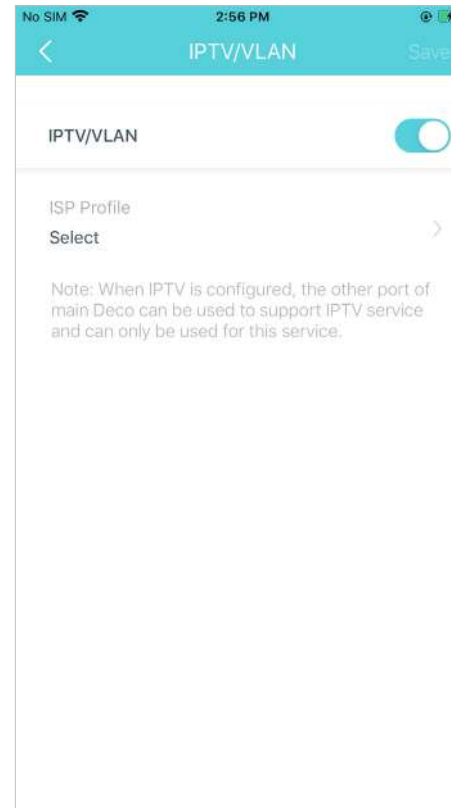

Modify LAN IP to avoid IP address conflict

Change DHCP server settings

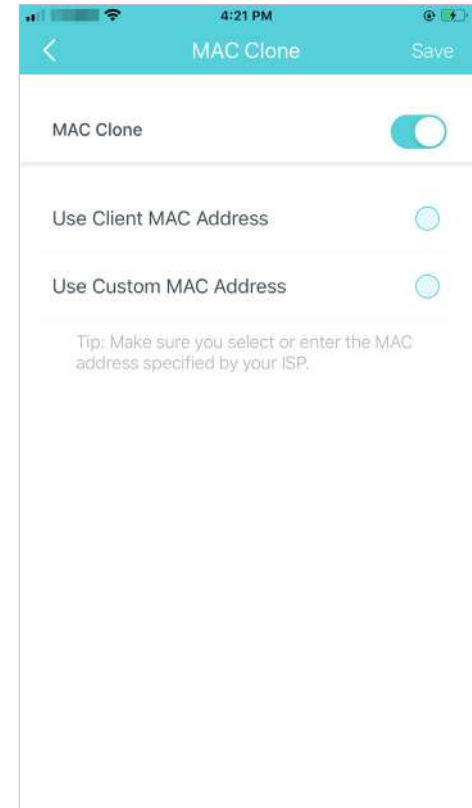

Enable IPTV/VLAN mode to support IPTV services

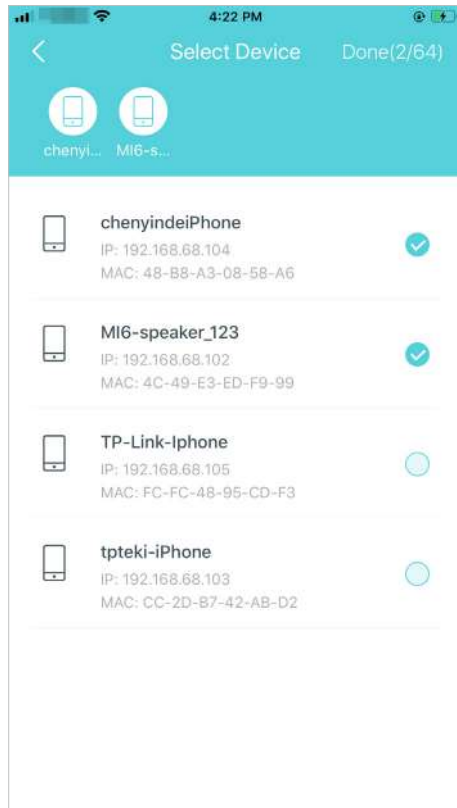

Enable MAC Clone if Deco fails to connect to the internet

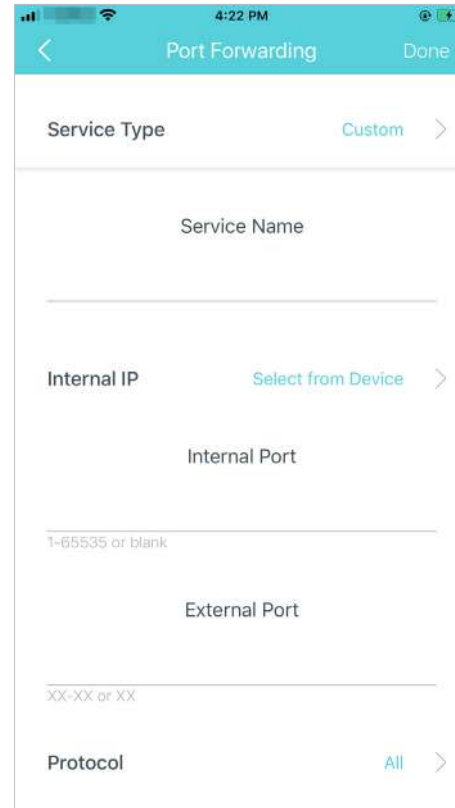

Tip: For more about MAC Clone, refer to <https://www.tp-link.com/support/faq/2925/>

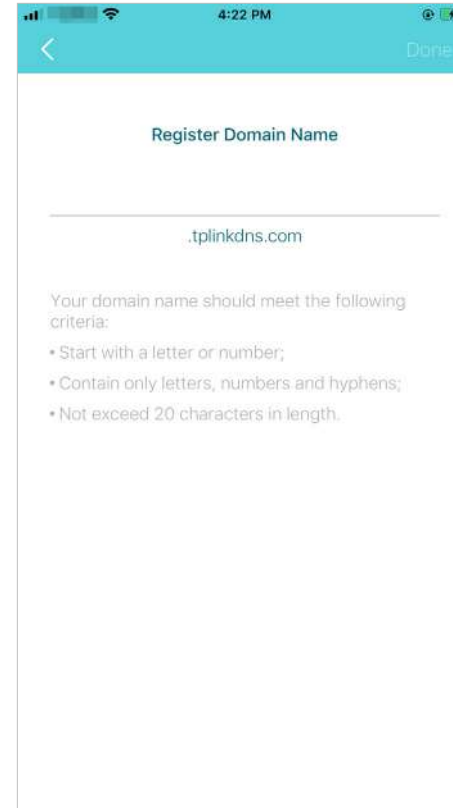

Reserve IP addresses for specific devices to recognize and manage the device more easily

Set up port forwarding rules to enable devices in your network accessible over the internet with safety

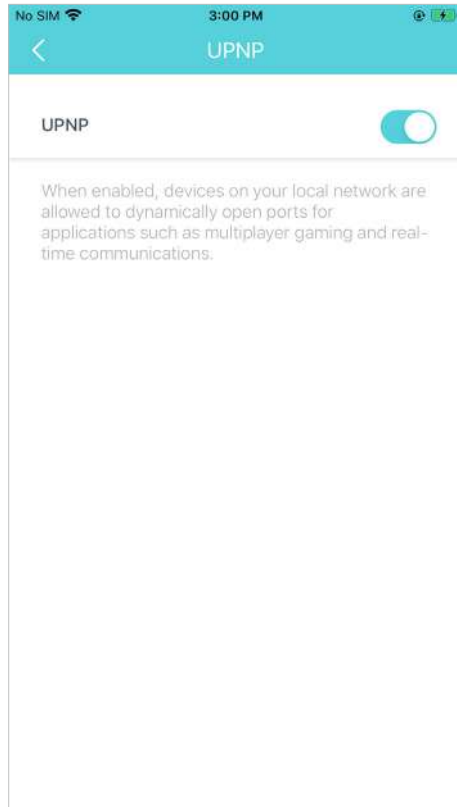

Register a TP-Link DDNS domain name to access your router and local servers using a domain name

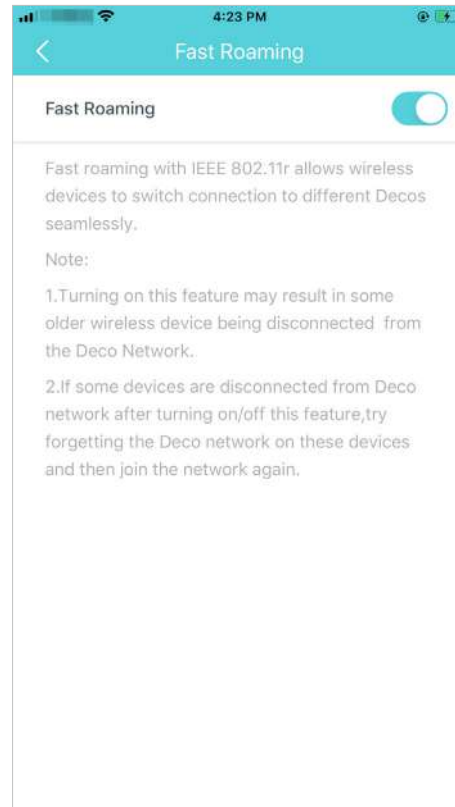

Enable SIP ALG to communicate with SIP (Session Initiation Protocol) servers via NAT

Enable UPNP to allow your local network to dynamically open ports for applications like gaming

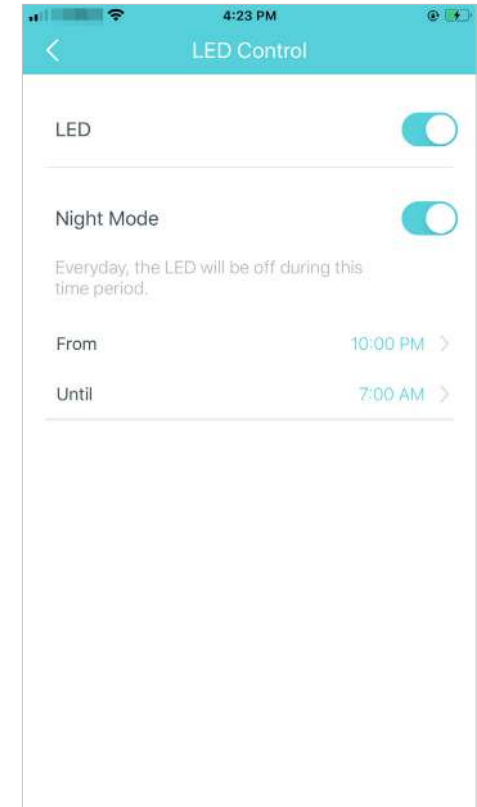

Enable Fast Roaming to allow your wireless devices to switch connection to different Decos seamlessly

Enable Beamforming to concentrate Wi-Fi signal towards connected devices for stronger connections

Toggle off LED to turn off the light on Deco. Configure the Night Mode to turn off the LED light at bedtime only

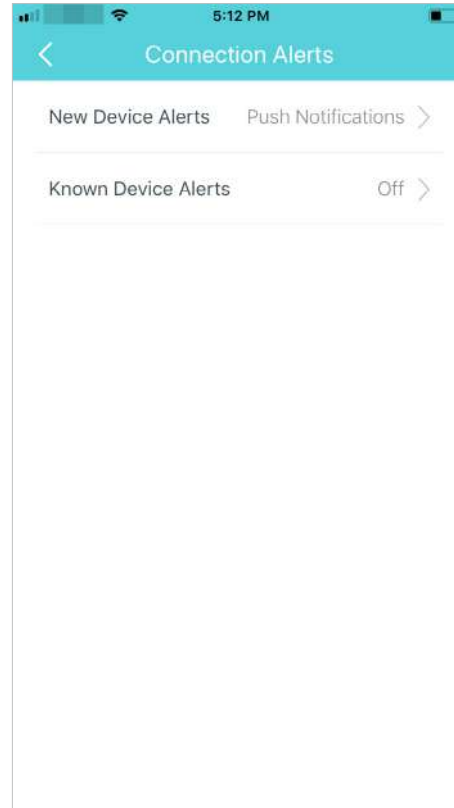

Change the operating mode

Note: When the Deco works in Access Point mode, advanced features such as HomeShield, IPv4, Address Reservation, Port Forwarding, and DHCP server are not available.

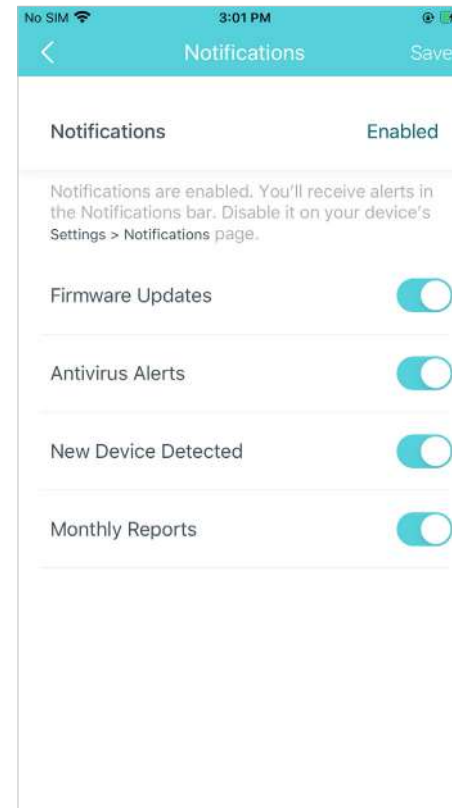

Set connection alerts to receive notifications once the clients connect to or disconnect from Deco

Set notifications to receive alerts in the notification bar

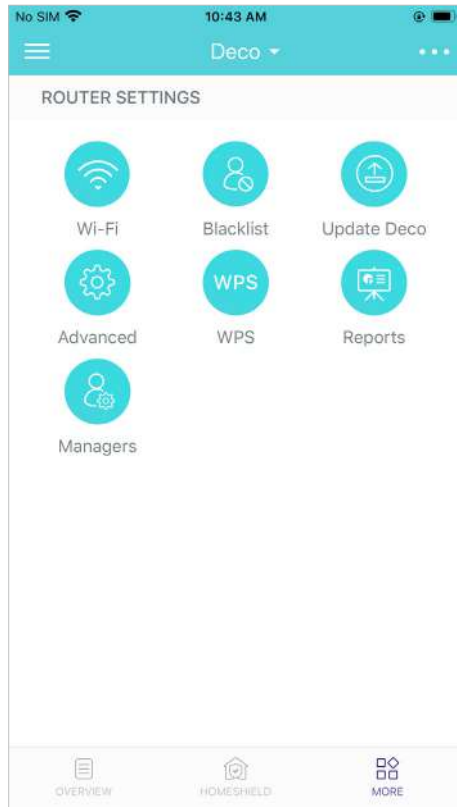

Note: If the Notifications option shows "Disabled", go to Settings > Notifications on your mobile device to enable it.

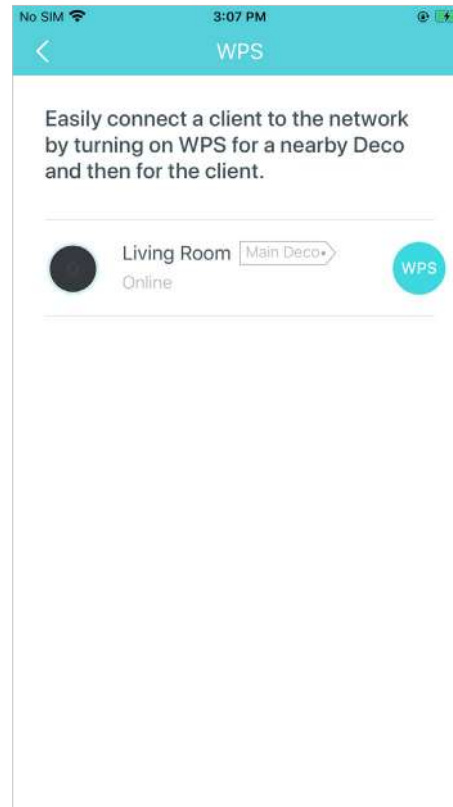

WPS

WPS (Wi-Fi Protected Setup) helps you to quickly and securely connect a client to a network with a tap without entering any password.

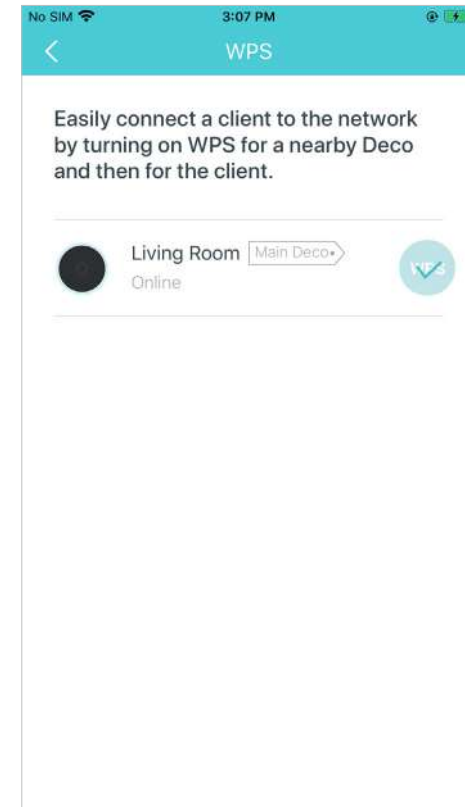

Tap  > WPS

Tap the **WPS** icon on Deco app and then on your client

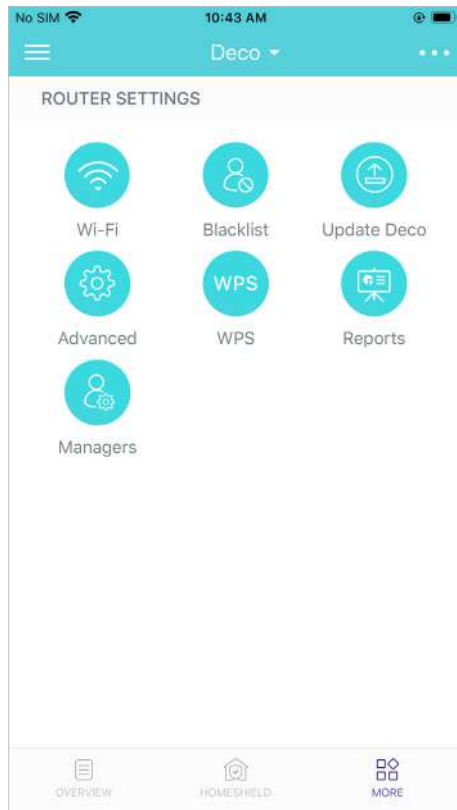

Your device connects to the network successfully if shown as below

Weekly/Monthly Reports

Review the weekly or monthly usage reports, such as security threats and total connected network devices each day.

Tap  > Reports

View weekly / monthly reports

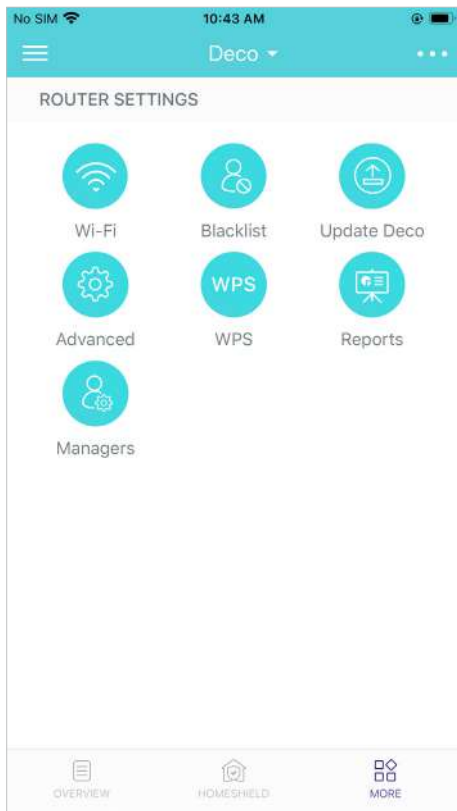

Tap  to enable or disable reports

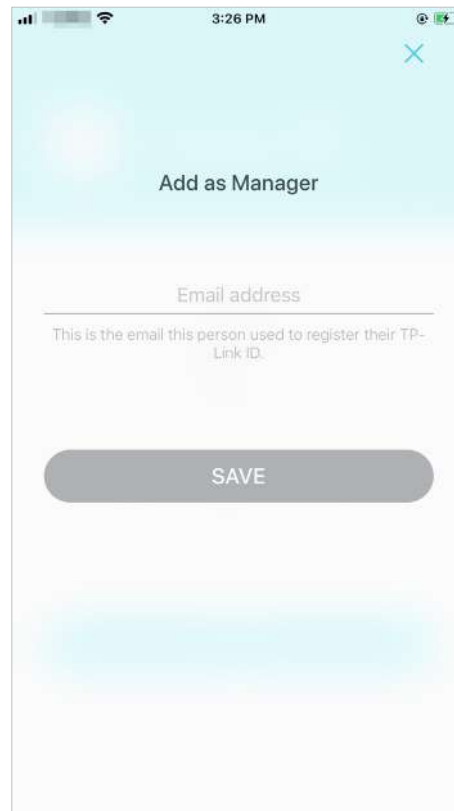

Managers

Add friends and family members to help manage your network. Each manager should have their own TP-Link ID.

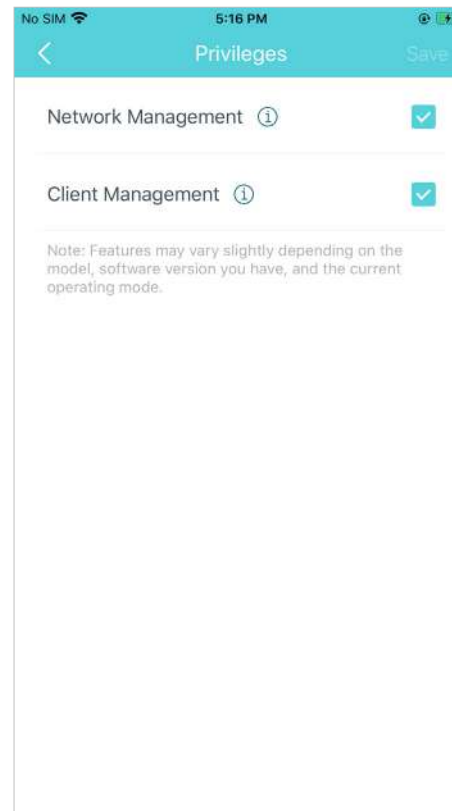

Tap  > [Managers](#)

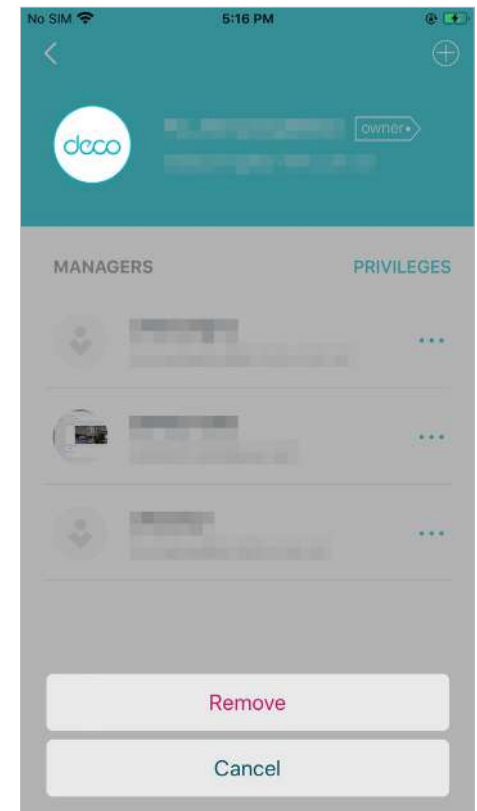

Add other accounts as managers

Set privileges for managers

Remove managers

FAQ

Solutions to common problems during setup or use are provided here for reference. Follow the steps in the provided link to solve your problem.

If problems still exist, contact us: <https://www.tp-link.com/support>

Q1. What should I do if I fail to configure the main Deco and get stuck on “We couldn't find Deco”?

Refer to the guide <https://www.tp-link.com/support/faq/2239/> or follow the video <https://youtu.be/2HYuEYS9XJM>

Q2. What should I do if I fail to configure the satellite Deco and get stuck on “We couldn't find another Deco”?

Refer to the guide <https://www.tp-link.com/support/faq/1447/> or follow the video <https://youtu.be/iVgDzoo16T4>

Q3. What should I do if I fail to configure the main Deco and get stuck on “Testing Internet Connection”?

Refer to the video <https://youtu.be/OSUrGdWH-i0>

Q4. What should I do if my wireless devices cannot connect to Deco?

Refer to the guide <https://www.tp-link.com/support/faq/2718/>

Q5. What should I do if Deco suddenly lost internet access?

Refer to the guide <https://www.tp-link.com/support/faq/1454/>

Q6. How can I find a suitable spot for my Deco?

Refer to the guide <https://www.tp-link.com//support/faq/1446/>

Q7. What can I do if the Deco app isn't working properly?

Refer to the guide <https://www.tp-link.com/support/faq/1456/>

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/ TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

FCC RF Radiation Exposure Statement

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.

"To comply with FCC RF exposure compliance requirements, this grant is applicable to only Mobile Configurations. The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter."

- 2) This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

We, TP-Link USA Corporation, has determined that the equipment shown as above has been shown to comply with the applicable technical standards, FCC part 15. There is no unauthorized change is made in the equipment and the equipment is properly maintained and operated.

Issue Date: 2020-11-26

Canadian Compliance Statement

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

1. l'appareil ne doit pas produire de brouillage;
2. l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Caution:

The device for operation in the band 5150–5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems.

Avertissement:

Le dispositif fonctionnant dans la bande 5150-5250 MHz est réservé uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux.

Radiation Exposure Statement:

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Déclaration d'exposition aux radiations:

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.

Industry Canada Statement

CAN ICES-3 (B)/NMB-3(B)

Korea Warning Statements:

당해 무선설비는 운용중 전파혼신 가능성이 있음.

NCC Notice & BSMI Notice:

注意!

依據 低功率電波輻射性電機管理辦法

LP0002低功率射頻器材技術規範_章節3.8.2

取得審驗證明之低功率射頻器材，非經核准，公司、商號或使用者均不得擅自變更頻率、加大功率或變更原設計之特性及功能。

低功率射頻器材之使用不得影響飛航安全及干擾合法通信；經發現有干擾現象時，應立即停用，並改善至無干擾時方得繼續使用。

前述合法通信，指依電信管理法規定作業之無線電通信。

低功率射頻器材須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。

5.7.9.1應避免影響附近雷達系統之操作。

安全諮詢及注意事項

- 請按照本產品注明的電源類型使用本產品。
- 清潔本產品之前請先切斷電源。請勿使用液體、噴霧清潔劑或濕布進行清潔。
- 注意防潮，請勿將水或其他液體潑灑到本產品上。
- 插槽與開口供通風使用，以確保本產品的操作可靠並防止過熱，請勿堵塞或覆蓋開口。
- 請勿將本產品置放於靠近熱源的地方。除非有正常的通風，否則不可放在密閉位置中。
- 不要私自拆開機殼或自行維修，如產品有故障請與原廠或代理商聯繫。

Safety Information

- Keep the device away from water, fire, humidity or hot environments.
- Do not attempt to disassemble, repair, or modify the device. If you need service, please contact us.
- Do not use damaged charger or USB cable to charge the device.
- Do not use any other chargers than those recommended
- Do not use the device where wireless devices are not allowed.
- Adapter shall be installed near the equipment and shall be easily accessible.

Please read and follow the above safety information when operating the device. We cannot guarantee that no accidents or damage will occur due to improper use of the device. Please use this product with care and operate at your own risk.
