

# Quick Start Guide

Outdoor Security Wi-Fi  
Camera

## Set Up Camera

### STEP 1

#### DOWNLOAD APP

Get the **Tapo** app from the App Store or Google Play.

### STEP 2

#### POWER UP

Plug in the adapter to power up your camera.

### STEP 3

#### SET UP

Tap the **+** button in the app and select your model. Follow app instructions to complete setup.

## Install Your Camera

### 1. Drill Holes

Stick the mounting template to the desired mounting place. Drill 3 screw holes ( $\Phi=6\text{mm}$ ) according to the template.

### 2. Mount Camera

Insert three anchors into the holes and use the screws to affix the camera over the anchors.

### 3. Connect to Power

Connect the camera to a power outlet using the provided power adapter. Install the waterproof seal for the power connectors.

### 4. Install Waterproof Cable Attachments

Install the waterproof cable attachments for the network interface. Make sure each part is securely attached and the waterproof rings are flush to keep out water.

#### • The Ethernet port connects to a network device.

a. Route the network cable through the following components in order: fix nut, waterproof ring, and then the waterproof jacket.

b. Insert the waterproof ring into the waterproof jacket.

c. Fix the O-ring to the network interface of the camera and connect the network cables.

d. Attach the network interface with the waterproof jacket, then twist to lock. Rotate the fix nut to secure it to the waterproof jacket.

#### • The Ethernet port does not connect to a network device.

a. Insert the waterproof plug into the waterproof ring, then insert them into the waterproof jacket.

b. Attach the network interface with the waterproof jacket, then twist to lock. Rotate the fix nut to secure it to the waterproof jacket.

<b>Solid green</b>	Connected to the cloud
<b>Blinking red quickly</b>	Camera resetting
<b>Blinking green quickly</b>	Camera updating

## FAQ (Frequently Asked Questions)

### Q1. What should I do if I fail to configure Tapo Camera?

- Visit <https://www.tp-link.com/support/faq/2747/> for detailed instructions.

### Q2. What should I do if the SD card is not working properly?

- Make sure you are using a microSD card.
- It's recommended to use a Class 10 microSD card or higher, with storage from 8 GB to 512 GB.
- Make sure you have initialized the microSD card in the Tapo app.
- If the problem still persists, contact our technical support.

### Q3. How do I reset the camera?

- With the camera powered on, press and hold the Reset button for about 5s until the System LED blinks red quickly to reset the Wi-Fi while keeping other settings; for 10s to factory reset the camera.
- Open the Tapo app, go to the Camera Settings page, and remove the camera to factory reset it.
